Bright Smile

THE SMILE
YOU DESIRE
**WITH MINIMAL
EFFORT**

BRIGHTSMILE ALIGNERS

Comfort, transparency,
effectiveness with complete freedom.

Your full-digital treatment

They are flexible and easy to remove.

BrightSmile orthodontic treatment is at the forefront of technology and completely digital. Your dentist will examine you and design a **3D computer model**, then you can choose the best treatment for your new smile.

BrightSmile treatment involves a series of transparent and progressive aligners.

The aligners are slightly different from each other, and by changing them, your teeth will **gradually** shift to fit their shape.

B R I G H T S M I L E A L I G N E R S

The duration of the treatment depends **on the specific** clinical case.

During the treatment, your dentist will periodically check your progress until they confirm that your smile is perfect.

The aligners are made from transparent thermoplastic material. They are **flexible and easy to remove**, so you won't have to change your lifestyle!

They don't interfere with your daily life and allow you to maintain **maximum comfort** while working towards your ideal smile.

K N O W O R T H L A B

During the first visit, your dentist will examine your teeth using 3D software and assess your dental condition together with you. In the BrightSmile package, you will find instructions and the sequence of models used to create the aligners.

Why choose BrightSmile

- **Comfort:** the aligners will fit your smile without causing any discomfort.
- **Clarity:** the aligners are transparent and perfectly smooth, so they won't even be noticed.
- **Effectiveness:** you will receive the aligners quickly, achieving the best results in a short time.
- **Removable:** you can freely remove brightsmile to maintain your dental hygiene. brightsmile is easy to remove, allowing you to enjoy special occasions with complete freedom!
